

Promix® 100LS Process Enhancer

Introducing Promix® 100LS from Flow Polymers

Product Overview

- Promix® 100LS is a highly effective process enhancer and for Natural and Synthetic rubber compounds.
- Key to Promix® 100LS's effectiveness is a proprietary blend of zinc soaps of fatty acids.

Demonstrated Benefits

- Reduces compound viscosity
- Significantly Improves Extrudate Appearance
- Improves Scorch Safety
- Promix® 100LS provides equivalent performance to Struktol® A50 at an equal or reduced loading.

Recommended Use:

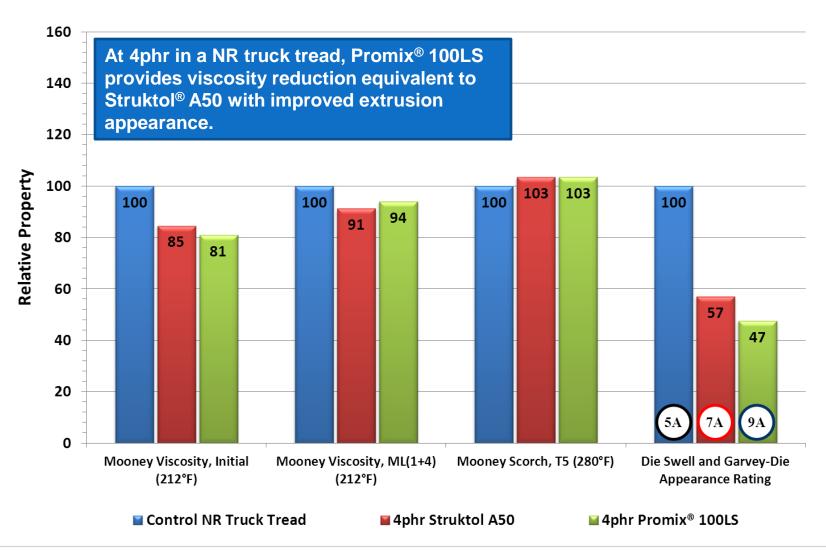

Natural and Synthetic rubber compounds at 3 – 5 phr
